Monetary conditions are softening. A big block of time money was offered to-day at 5:1-2 per cent. for six months and refused. The lender then offered the money at 5 per cent. on which basis a deal was made. Call money ranged 5 to 5:1-2. Wagers were made on the Exchange that call money would be plenty at 4 per cent. within sixty days and go no higher during the summer months. An official of the National City Bank was quoted as predicting dear money for the entire year. He also talked in a gloomy strain about market conditions, his prophecies extending clear through the Presidential year.
